

## OUR HEALTH.

## The State Board Takes Its Departure.

## REGULATIONS TO BE OBSERVED.

## Vaccination to be Strictly Enforced by Law—The State Board Satisfied.

The visiting physicians of the State Board of Health occupied the day yesterday in taking drives around our beautiful city. They were escorted by members of the City Council, the Mayor and other local authorities. They were given every opportunity to investigate the "centers of disease" in this city, and all efforts were made by our officers to give them the true state of the case. They were astonished and pleased at the things they saw in their trip, and took a deep interest in the matter which the State paid them to come down here and investigate. The gentlemen had a delightful trip around the city and its suburbs and talked more about the price of corner-lots than they did of the smallpox. When they saw a yellow flag displayed each member began to speculate on the price of the property near it. A prominent member of the Board was asked what he thought of the smallpox situation. "The smallpox? Oh, that's all right, but by Jove, what a nice place this is to live in. Can you send me to some real estate agent that you know to be perfectly reliable?" He was given a list of 1100 real estate agents and the doctor said: "Hang the smallpox. Let's go and see what we can buy a residence for." Dr. Cole is thinking seriously of purchasing a lot and erecting thereon an immense hotel. The members of the State Board were dined extensively while here and they left yesterday afternoon for San Diego. They departed in an excellent humor after a cordial dinner with Dr. Hagan. The people of the seaport town are notified to see to it that the doctors are supplied with chops down to a turn, breakfast rare, and above all to have the wine well iced.

## GOOD REGULATIONS.

When the State Board met with the Council on Monday night Dr. Cole made numerous suggestions which the Board thought should be incorporated in our city laws. It was discovered that the measures suggested by Dr. Cole are now laws of the City of Los Angeles, and the authorities are determined to enforce them. Dr. Hagan says that everything will be required to live up to the laws published below, which are taken from the city ordinances. He will divide the city into districts and compel all who have not been vaccinated to submit to that operation. He will have a house-to-house vaccination. The doctor thinks that the smallpox hospital should remain where it is at present.

## THE LAWS.

Section 1. Every person living within the limits of the city of Los Angeles, who has not been vaccinated or has not had smallpox or varioloid, is hereby required to be vaccinated forthwith, and it shall be the duty of the Health Officer to receive and vaccinate at his office, free of charge, all persons who may apply.

Any person within the meaning of this section who neglects to be vaccinated shall be arrested by the police officer, and if unable to procure the services of some other physician, shall be brought before the Health Officer and be vaccinated by him.

Sec. 2. The Health Officer, who shall be a graduate of some medical college, in good standing, and residing within the city limits, shall keep an office in some convenient location, and shall keep the same open for gratuitous vaccination during certain hours of the day, of which he shall give public notice by advertisement from time to time in two daily newspapers, the one English, the other Spanish. He shall give his personal attention and services to the work of gratuitous vaccination, selecting and preserving the vaccine virus with the utmost care and skill, and shall so perform his duties as to promote the physical well-being of all who shall apply at his office.

Sec. 3. Every police officer shall be, and is hereby constituted an ex-officio Health Inspector, and it shall be his duty at all times to make a report to the Health Officer, when he shall observe that any building, street, alley, court, lot or premises in said city is in a condition offensive to the public health, and it shall be the duty of the Health Officer to report to the City Marshal any neglect on the part of any policeman to discharge this duty.

Sec. 4. It shall be the duty of each physician in this city to report to the Health Officer, in writing, every patient he shall have within the limits of the city, affected with cholera, smallpox or other contagious disease, immediately after he shall become satisfied of the nature of such disease, and shall report to said Health Officer every death from such disease immediately after the occurrence of such death.

Sec. 5. It shall be the duty of every householder in this city, or other person not employing a physician, to report in writing to the Health Officer immediately the name of every person boarding or lodging in his or her house whom he or she shall have reason to believe to be sick of cholera, smallpox or other contagious disease, and the death of any such person occurring at his or her house from any of such diseases.

Sec. 6. No person shall drive or use any vehicle, or permit any vehicle belonging to him or her, or under his or her control, to be driven or used for the conveyance or removal of any person infected with cholera, smallpox or other contagious disease, or the body of any person who may have died of any such disease, without the written consent of the Health Officer.

Sec. 7. No person attending upon or otherwise coming in contact with any contagious disease in such a manner or to such an extent as to render him or her liable to communicate the disease, shall, during the continuance of the disease, go upon any public street wearing any infected clothing, or, whilst thus attired, mingle with others not affected with such disease.

Sec. 8. Whenever a case of smallpox is reported to the Health Officer, it shall be his duty, on proving the existence of the disease, to immediately cause to be erected a yellow or quarantine flag in a conspicuous place on said premises, or to have posted upon the doorway of houses infected with the smallpox, a placard setting forth the fact, the same to remain during the continuance of the disease on said premises.

Sec. 9. No person shall remove a smallpox patient from any house or place within the limits of the city, to any other house or place in said limits, except to the smallpox hospital, without a permit from the Health Officer.

Sec. 10. No person shall, without a permit from the Health Officer, carry or remove from one building to another, or from any railroad depot to any house or through public streets, any person sick of any contagious disease; and all per-

sons having any contagious disease in their house or on or about their premises, shall, immediately after their convalescence or removal of the persons affected therewith, disinfect, cleanse and purify their said houses and premises and rid them of every danger of propagating or communicating the said disease to others.

## A LATER ORDINANCE.

Section 1. That the Board of Health of said city shall have power and authority to make all needful rules and regulations to carry out the objects and purposes of said Board.

Sec. 2. That every person living within the limits of said city, who has not been vaccinated within seven years, or where, having been vaccinated, said vaccination, in the opinion of the Health Officer of the city, was not effective; and excepting also all persons who have had the smallpox or varioloid, is required to be vaccinated on the demand of the Health Officer or any assistant of such Health Officer.

And any such person refusing to be vaccinated as aforesaid shall be arrested by any police officer of the city and brought before the Health Officer and vaccinated by him.

Any person who shall refuse to allow said Health Officer to vaccinate him or her shall be guilty of a misdemeanor, and it shall be the duty of the Health Officer to report the same to the Judge of the City Court, who shall issue a warrant for the arrest of such person and cause him or her to be brought before him and shall proceed immediately to hear the case, and if such person is found guilty of such offense he shall be fined not less than \$10 nor more than \$100, or imprisoned not less than five nor more than 100 days, or both, in the discretion of the said Judge.

Sec. 3. Said Health Officer may, with the consent of the Board of Health, employ any necessary number of assistants and assign to each his duties and determine compensation, subject to the approval of the Council.

Take Ayer's Sarsaparilla in the spring of the year to purify the blood, invigorate the system, excite the liver to action, and restore the healthy tone and vigor of the whole physical mechanism.

## THE CONTEST.

**Taking of Testimony Resumed Yesterday Morning.**  
Notary Owen continued the hearing of testimony in the Lynch-Vandever contest yesterday. Mr. Edward Goodman was the first witness examined. He said that he registered and his name appeared on the Great Register. He went to the White House polls at 3:30 in the afternoon on election day. He got into the line and waited until nearly 5 o'clock, when, seeing no chance to deposit his vote, he left. He would have voted for Mr. Lynch for Congress. There were seventy men shut out when the polls closed. The sun was not down when the polls closed.

Mr. W. D. Brown testified that he went to the White House to vote, but owing to the large crowd he was prevented. He would have voted for Mr. Lynch.

Mr. T. Randall testified that he is a legal voter, but was prevented from voting at the White House precinct, at the last election, owing to the crowded state of the polls. He would have voted for Mr. Lynch.

Mr. George Burge testified that he enrolled his name with a Deputy Assessor, but his name did not appear on the Great Register and he was not allowed to vote. He would have voted for Mr. Lynch.

Frederick Baker testified that he was a registered voter and tried to vote at the White House, but the crowd was so large that he was shut out. He would have voted for Mr. Lynch. H. Thompson testified to the same effect.

F. H. Steele testified that it took him twenty minutes to vote at the White House. There were 150 in line. He thought 150 votes were shut out. He saw men leave the line without voting. He saw "dummies" in line, put there by Republicans. They were managed by a man named Tom Carter, who was working for the Republican party. Carter has been in San Quentin.

Henry Orlitt testified to the large number in line at the White House and the time it took them to vote. He noticed three men drop out of line.

W. T. Barnes testified that he enrolled his name, but it did not appear on the Great Register and he did not vote. Would have voted for Mr. Lynch.

Constable Ed. Smith testified to the large number in line at the White House, and to the length of time it took a man to deposit his vote. Mr. Smith also said that he was informed by the County Clerk that registration would close on the 2nd of October, and he told everybody after that date that it was too late to register and vote.

Mr. Smith said that at 3:30 o'clock he counted the line at the White House precinct and there were just seventy-nine men in it. He saw several men leave the line because it was impossible for them to stay there over an hour to vote. One of the men is named Scheerer, a German and a Democrat. He considered that by re-districting the ward the Republican Board of Supervisors threw away a hundred more Democratic votes into the White House precinct than there were at the election in 1884. Mr. Smith said that he saw a man get into the line at 3:40 in the afternoon, and when the polls closed there were at least ten men ahead of him and he could not vote.

The taking of depositions was adjourned until 10 o'clock this morning.

## STREET-PAVING.

## Advertisement for Bids and Specifications Recommended.

The City Council met as a Committee of the Whole, last night, Mr. Perry in the chair, for the purpose of discussing the specifications for paving the streets with asphalt and granite. After some discussion as to the desires of property-owners, Mr. Breed presented a letter from ex-Superintendent Patterson, of San Francisco, recommending Santa Cruz bituminous rock for paving purposes. Mr. Breed said that it was not fixed that the city should be paved with granite or asphalt, but he would like to have it understood that in case something better is found it can be substituted. Mr. Perry replied that he did not understand that it was obligatory to pave with only asphalt or granite, or to operate only according to the specifications prepared. He thought that the better way would be to advertise for bids and let the contractors furnish their own specifications. Mr. Frankfield thought it would be just as well to have the specifications read but not adopted until others had been presented. The Secretary then read the specifications for paving with asphalt and granite. Mr. Breed moved that they be referred to the Board of Public Works to have the blank portions filled, and that some changes be made; that bids and specifications for one and ten blocks separately be advertised for, and that the bidders be asked to guarantee their work for a certain term of years. Carried. After an informal discussion on the question of making a test case as to whether the Council could go ahead and pave, the meeting adjourned.

## The Room at Ivanhoe.

Any one who thinks that every person who has left the city, will change their minds by visiting the office of Byram & Pindexter, 27 West First street, across the Ivanhoe. Sale of lots in this magnificent suburban site is wonderful. The only difficulty one has in making a selection, there are so many beautiful lots. To see Ivanhoe late buy. About \$6000 worth of lots were sold in Ivanhoe yesterday.

Buy Eggleston's perfect fitting shirts, 50 North Spring street.

Burke's porter is endorsed by physicians. Consumptives and invalids should use it.

**Pure Bovine Virus.**  
Dr. P. T. Hinkins has received a quantity of pure bovine virus direct from the Chicago vaccine farm, and is prepared to vaccinate all parties who may apply at his office, 17 North Main street.

Burke's porter strengthens and tones the system. The best malt liquor.

## A Review of the Day's Transactions.

New York, March 15.—The stock market was firmer to-day, but with the exception of a few minutes in the early morning, presented a good front, and for the most part the losses of yesterday were generally recovered. The opening this morning was from 1/4 to 3/4 per cent. above the final figures of last evening, while Hocking Valley was up 1/4 per cent. Hammering by bears and extraordinary weakening in West Point, which dropped 1/4 per cent, carried the general list down and the gains of the day were generally wiped out. A rally quickly followed, however, and before the end of the first hour of the rally losses were regained. After that time the market became dull with very slight fluctuations, though changes made were invariably in the direction of higher prices until nearly 2 p. m., when the market sagged slightly. The last hour saw a renewal of the upward movement, however, and the close was moderately active and strong at highest prices of the day. Government bonds dull and rather heavy.

**Financial.**

## Mirror of Ireland.

The entertainment given by the Sullivan Combination at the Grand last evening was well attended. The panorama and scenes of cities and villages of Ireland are excellent. Sullivan's Jigs and songs were very enjoyable, and he kept the audience in a uproar from the time the curtain rose until it dropped. He will give another entertainment this evening, and all those who wish to have a good laugh and enjoy themselves should attend.—Huron Times.
